Journal Entry: Being a Bystander

Has there ever been a time where you witnessed a peer you didn't know being bullied? Maybe this person was left out, teased or physically hurt by another student. What did you feel when you saw this happen? Did you do anything to help the victim, or did you walk away? Did anybody else help the victim? Did adults step in to help? If you saw it happen again, what would you do? Use as many details as you can remember.
