## Journal Entry: Movin' on Up to Middle School! Part 2

Now that you have thought about how you transitioned to Middle School, write about how you would want to help others feel welcome in Middle School. Let's say there is a new kid who transferred from a different town...or maybe another new kid from a different elementary school. How do you think they feel in this new place with all these new people? What can you do or say to make them feel welcome? How would you help them make friends? What could you do to be a friend to them? Write as much as you like about how you would be a friend. Use a lot of details!
